Note: Each list was originally in order by subdivision within Draft Board. The Draft Boards have been combined and the records sorted by last name, first name and middle name to make searching easier.

## **Unofficial List to Date of Order and Serial Numbers of Adams Countians Under Supervision of Two Draft Boards**

### **4,500 Registrants in County**

The two Draft Boards in Adams county have a combined draft list of more than 4,500 men between the ages of 21 and 36 years.

The names of the registrants with the two boards are spelled in the list below as they appeared on cards obtained on registration day. Errors in spelling are to be corrected after later interviews with the registrants.

Both boards in the county still expect to receive more cards of countians who registered elsewhere but whose records come under their supervision.

### **How to Find Your Order Number**

The number assigned to you by one of the draft boards in the county is printed on the list below. You can determine your own order number by counting down from the subdivision in which your draft board (or serial) number appears.

For example: A registrants' number – 198 – appears in the sub-division headed "51-100." Then to determine his number the registrant begins to count at 51 until he reaches his number – 198. Then, in that case, the registrant with a serial number of 198 will have an order number of 59.

The order number is important because it will designate the order in which conscripts will be called for military service.
